

# JAYASRI PORALLA

## FULL - STACK DEVELOPER

9502804360 | [jayaporalla921@gmail.com](mailto:jayaporalla921@gmail.com) | <http://www.linkedin.com/in/jayasriporalla> | <https://github.com/jayaporalla> | Kodad, TS

### PROFESSIONAL WORK EXPERIENCE

#### Full Stack Developer Trainee | GeeksforGeeks

Dec 2024 - May 2025

- Completed an intensive Full-Stack Development program at GeeksforGeeks, gaining expertise in Java, DSA, and front-end technologies like HTML, CSS, JavaScript, React, Node.js, and Bootstrap through hands-on learning.
- Completed all course modules, quizzes, LeetCode problems, and real-time projects, demonstrating strong problem-solving and application development skills.

#### Transportation Representative | Amazon

May 2024 - Nov 2024

- Analyzed large datasets to optimize shipment tracking, boosting accuracy and reducing delivery delays by 10%.
- Streamlined transportation processes through effective cross-functional collaboration.
- Utilized tools like Excel, SQL, GeoDataEditor, and GAM to enhance data analysis and operational efficiency.

#### Associate Software Engineer | Accenture Private Limited

Nov 2022 - Sep 2023

- Developed scalable backend solutions for the **QBE\_AO\_Transformation** project, enhancing system efficiency and maintainability.
- Contributed across the full **SDLC** — including design, development, testing, deployment, and post-release support — leading to a **15% improvement in delivery speed**.
- Streamlined deployments and managed version control using **Azure DevOps (Git)**, reducing deployment errors by **10%** and improving release reliability.

### EDUCATION

Jawaharlal Nehru Technological University, Hyderabad | Bachelor's in Electrical | Percentage - 77%

Aug 2022

Intermediate (12th Grade) - 96%, Secondary School (10th Grade) - 88%

### PROJECT EXPERIENCE

#### Full Stack Developer Trainee Projects - GitHub

Dec 2024 - May 2025

- Designed and developed responsive and visually engaging UIs, including: Personal Portfolio Website, Parallax Website, News Portal, YouTube Clone, and Restaurant Website using HTML5, CSS3, and Bootstrap.
- Built interactive and logic-based applications such as: Quizify, Wish list Manager, Regex-based Form Validation, Notes App, Flash E-commerce Project, Movie App, Recipe App, and 2048 Game.
- Built scalable single-page applications using React and Redux, such as: Notes App (React), Movie App (Redux), and a complete E-commerce Major Project.
- Delivered lightweight and creative projects including: Chrome Browser Extension, Quiz App (React), and Breeze Travel UI.
- Used Git & GitHub for managing codebase versions, branching, collaborating, and automating workflows across multiple projects.

#### QBE\_AO\_Transformation | QBE Insurance Group Limited

Nov 2022 - Sep 2023

- Contributed to the successful completion of the **QBE\_AO\_Transformation** and **ESB IIB** projects, enhancing system efficiency by **15%** through optimized backend solutions. Developed middleware integrations using **Java**, **WebSphere MQ**, and **IBM Integration Toolkit** for seamless data flow across services.
- Automated testing using **JMeter** and integrated CI/CD pipelines via **Jenkins**, reducing testing time by **30%**. Managed deployments across **DEV**, **SYS**, **UAT**, and **PROD** environments using **Azure DevOps**, ensuring consistent and stable delivery.
- Resolved incidents via **Jira** and **Service Now**, achieving a **25% improvement in issue resolution time** through proactive support and monitoring.

### CERTIFICATIONS

- DSA to Development: A Complete Guide - [GeeksforGeeks](#)
- Full Stack Development with React & Node JS - [GeeksforGeeks](#)
- Google Data Analytics Professional Certificate Course – [Coursera](#)
- Postman API Fundamentals Student Expert - [Postman](#)

### HONORS AND AWARDS

- TechExpressWayMeritHolder – Accenture**

*Awarded for outstanding performance and technical excellence in the TechExpressWay program, recognizing top-performing associates among early-career professionals.*

### SKILLS AND TECH STACK

Programming and scripting language: JavaScript, Java

Back-end and relational database: Node, Express.js, MySQL, NoSQL databases like MongoDB, and Mongoose.

Front-end technical skills: HTML5, CSS3, React, Redux, Tailwind CSS, Material UI, Bootstrap, Redux-thunk.

DevOps tools and software: Version control and collaboration: Git, GitHub (branching, collaboration, CI/CD integration); Agile, Service Now Microsoft Office Suite (Excel, PowerPoint, Word), Postman, and Visual Studio Code.

Soft Skills: Written and verbal communication skills, critical thinking, problem-solving, analytical, decision-making, and leadership skills.
